FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

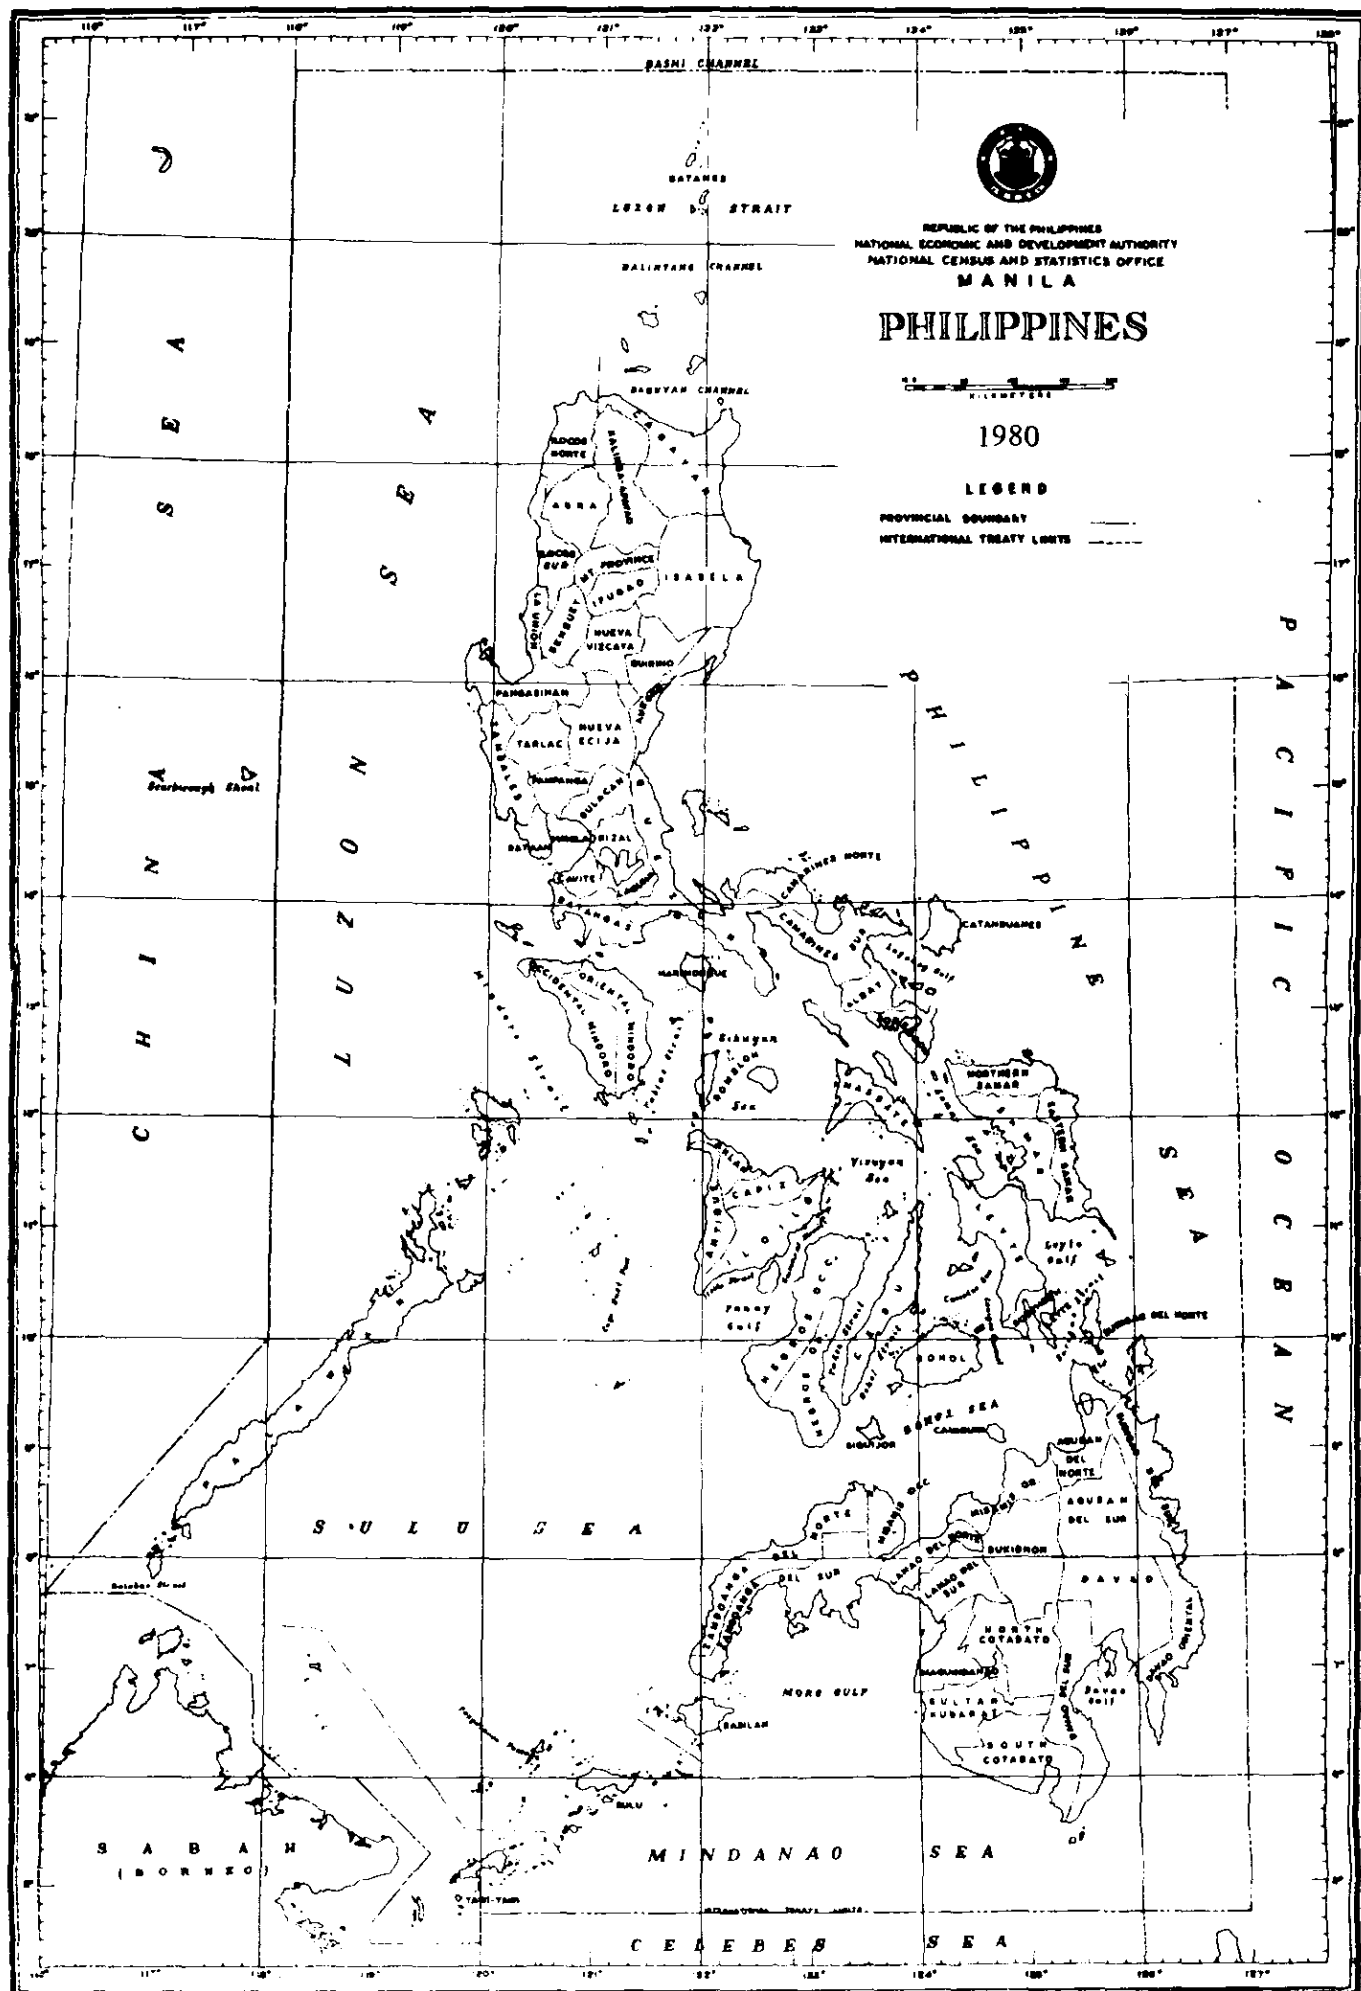

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

TITO A. MIJARES

Explanatory Text

GENERAL

INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

EXPLANATORY TEXT

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

CENSUS ORGANIZATION

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

METHOD OF ENUMERATION AND USE OF SAMPLING

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

PLACE WHERE ENUMERATED

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

EXPLANATORY TEXT

POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

DEFINITION OF TERMS AND CONCEPTS

I – POPULATION

BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
 - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
 - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
 - c. At least three of the following:
 - 1) A town hall, church or chapel with religious services at least once a month;
 - 2) A public plaza, park or cemetery;
 - 3) A market place or building where trading activities are carried on at least once a week;
 - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
 - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

EXPLANATORY TEXT

- or within one year, if abroad;
 - b. students who usually go home to their respective households at least once a week;
 - c. persons working elsewhere who usually go home to their respective households at least once a week;
 - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
 - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
 - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
 - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
 4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
 5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
 6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
 7. Persons found in the household who have no usual place of residence elsewhere;
 8. Persons found in the household who are not certain of being enumerated elsewhere;
 9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
 10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
 11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
 12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

EXPLANATORY TEXT

PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellory or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are ~~students~~ or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

EXPLANATORY TEXT

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

PERSONS NOT LIVING IN HOUSEHOLD

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

RESPONDENT

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

HEAD OF HOUSEHOLD

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

RELATIONSHIP TO HEAD OF HOUSEHOLD

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse – a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter – the head's own child, stepchild, or adopted child.

EXPLANATORY TEXT

3. Son-in-law/daughter-in-law – refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter – child of the son or daughter of the head.
5. Other relative – a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others – any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under “Others”.

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single – If never been married.
- b. Married – Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as “married” includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed – A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated – If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced – If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown – If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

EXPLANATORY TEXT

HIGHEST GRADE COMPLETED

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

USUAL OCCUPATION

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

INDUSTRY

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

EVER-MARRIED WOMAN

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

II – HOUSING

BUILDING

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesoria, condominium) that was vacant;

EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. **Single house** — a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. **Duplex** — a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. **Apartment/accesoria/condominium/row house**

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

4. **Improvised (barong-barong)** — a makeshift or roughly constructed house usually built with salvaged materials.
5. **Commercial/industrial/agricultural** — buildings not intended for human habitation but used as dwelling units at the time of the census.

Commercial — a building used for transacting business or rendering professional services, such as a storage or an office building.

Industrial — a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.

Agricultural — any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

6. **Other housing unit (natural shelter, boat, etc.)**

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

7. **Hotel, lodging house, dormitory, etc.** — This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. **Institutional (hospital/convent/school dormitory/penal institution, etc.)** — a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. **Other collective living quarters** — any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

EXPLANATORY TEXT

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

DWELLING UNIT

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as *living quarters* by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

CONSTRUCTION MATERIALS OF ROOF

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

CONSTRUCTION MATERIALS OF OUTER WALLS

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

YEAR BUILDING WAS BUILT

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

NUMBER OF ROOMS IN THE DWELLING UNIT

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

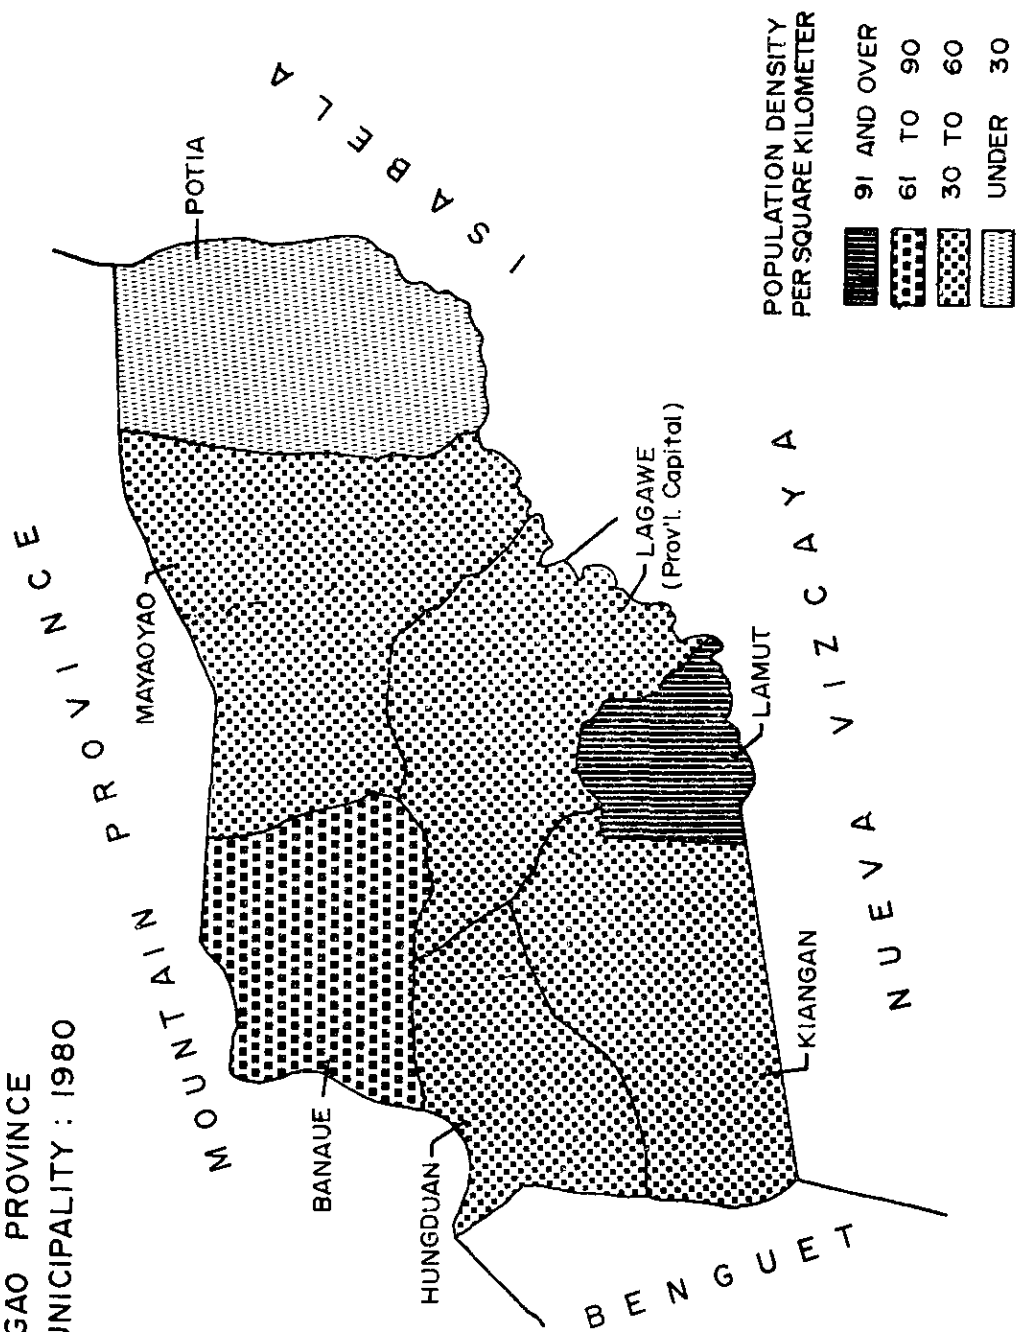

EXPLANATORY TEXT

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

FLOOR AREA OF DWELLING UNIT

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Area of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway was excluded in determining the floor area.

POPULATION DENSITY OF
IFUGAO PROVINCE
BY MUNICIPALITY : 1980

Ifugao : A Brief Analysis

Ifugao is surrounded by rugged peaks, except on its eastern portion. The Polis Mountain Range shuts off Ifugao from Benguet on the west and Mountain Province on the northwest. Nueva Vizcaya lies on its southern portion and Isabela on the eastern part. With a land area of 2,517.8 square kilometers, the province represents only 0.84 percent of the total land area of the country. The topography of the province has been the primary factor why the development of Ifugao has lagged far behind other provinces.

A former subprovince of Mountain Province, Ifugao became a province by virtue of Republic Act No. 4695 on June 18, 1966. Under this Act, Mountain Province was divided into four provinces namely: Benguet, Ifugao, Kalinga-Apayao and Mountain Province.

As a province, Ifugao is composed of seven municipalities with Lagawe as the provincial capital.

POPULATION

The 1980 census registered a population of 111,368 for Ifugao (males — 55,813; females — 55,555), an increase of 6.36 percent from the 1975 population of 104,707 or 20.41 percent compared with the 1970 level. Although the population density of the province increased from 41.6 persons per square kilometer in 1975 to 44.2 in 1980, its annual geometric growth rate was observed to have decreased from 2.52 percent in 1975 to 1.24 in 1980. Ifugao ranks sixty-seventh in population size and is one of the least densely populated provinces in the country.

The sex ratio (number of males per 100 females) of the population slightly decreased from 100.99 in 1975 to 100.46, the males still predominating the females. The rural population sex ratio slightly increased to 100.98 from 100.95 in 1975 while the urban sex ratio dipped abruptly from 101.64 in 1975 to 95.43.

As shown in Table A, Ifugao is still predominantly rural although an increase in the proportion of urban residents is noted (from 5.63% in 1975 to 9.09% in 1980). As a result, the rural proportion has dropped considerably from 94.37 percent to 90.91 percent.

A BRIEF ANALYSIS

**TABLE A – URBAN-RURAL POPULATION BY SEX,
IFUGAO: 1970, 1975 AND 1980**

Area Classification and Sex	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>111,368</u>	<u>100.00</u>	<u>104,707</u>	<u>100.00</u>	<u>92,487</u>	<u>100.00</u>
Male	55,813	50.12	52,611	50.25	45,086	48.75
Female	55,555	49.88	52,096	49.75	47,401	51.25
Urban	<u>10,125</u>	<u>9.09</u>	<u>5,898</u>	<u>5.63</u>	<u>6,961</u>	<u>7.53</u>
Male	4,944	4.44	2,973	2.84	3,339	3.61
Female	5,181	4.65	2,925	2.79	3,622	3.92
Rural	<u>101,243</u>	<u>90.91</u>	<u>98,809</u>	<u>94.37</u>	<u>85,526</u>	<u>92.47</u>
Male	50,869	45.68	49,638	47.41	41,747	45.14
Female	50,374	45.23	49,171	46.96	43,779	47.33

A BRIEF ANALYSIS

Figure 1 shows the age-sex composition of the urban and rural population. Each bar in the diagram represents the proportion of males or females in five-year age groups, urban or rural, to the total population. As seen in the diagram, both the urban and rural population, male and female, deviate significantly from the pyramid structure. Among the urban males and females disagreements are very evident from the age group 10-14 years up to persons 40-44 years old. For the rural population, males and females 45 to 49 years old exceed the three younger age groups immediately preceding them and those in the 55-59 age group outnumber the age group 50-54 years.

AGE COMPOSITION

Despite the continuing decrease in the proportion of the younger age group (0-14 years), the province has a high proportion of the youth population. Persons in this age group make up 43.81 percent of the 1980 population of the province. However, the proportion of persons in the working or productive ages (15-64 years) is on the upswing. After rising 1.27 percentage points between 1970 and 1975, it has increased 1.45 percentage points to 53.41 percent in 1980. Persons in the older age group (65 years and over) constitute 2.78 percent of the provincial population or an increase of 0.98 percentage point from that of 1975. Consequently, the median age of the population has increased from 15.41 to 16.60 years.

Nearly the same proportion of persons aged 15-64 is found in the urban (53.08%) and in the rural areas (53.45%). However, the urban sector has a slightly lower proportion of the youth population (43.70%) than the rural (43.82%). Correspondingly, a higher proportion of the older age group is found in the urban (3.22%) than in the rural areas (2.73%).

Below are comparative figures on the age composition of the population:

**TABLE B — AGE COMPOSITION OF THE POPULATION,
IFUGAO: 1970, 1975 AND 1980**

Age Composition	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>111,368</u>	<u>100.00</u>	<u>104,707</u>	<u>100.00</u>	<u>92,487</u>	<u>100.00</u>
0-14 years	48,787	43.81	48,421	46.24	43,504	47.04
15-64 years	59,486	53.41	54,403	51.96	46,884	50.69
65 years & over	3,095	2.78	1,883	1.80	2,099	2.27

Due to the increased percentage of persons in the productive age group, dependency ratio dropped from 92.47 to 87.22. Urban dependency ratio was higher than the rural ratio, 88.41 for the former and 87.10 for the latter. Comparatively, fewer dependents were found among the females than among the males. For every 100 females in the working ages, 81.37 were considered dependent upon them. A dependency ratio of 93.43 was noted among the males.

A BRIEF ANALYSIS

MARITAL STATUS

Married persons constituted a bigger proportion of the population 10 years old and over. Married individuals accounted for 50.03 percent or an increase of 1.72 percentage points from that of 1975. Never-married persons, on the other hand, showed an up-and-down trend. After increasing by 5.12 percentage points between 1970 and 1975, it decreased by 2.87 percentage points to 41.77 percent in 1980. Meanwhile, an increase of 0.75 percentage point for the widowed category and 0.32 percentage point for the divorced or separated, may be noted.

Of the 37,652 males, 45.33 percent were never married, 50.42 percent were married, 2.95 percent were widowed, and 1.14 percent, divorced or separated. These represented a decrease of 2.97 percentage points in the proportion of never married males and an increase of 2.06, 0.38 and 0.39 percentage point in the proportion of married, widowed and divorced or separated males, respectively. Among the females, 38.34 percent were single following a 2.70 percentage-point decrease. The proportion of married females slightly increased by 1.39 percentage points after decreasing by 2.09 percentage points in 1975. Those widowed suddenly rose to 9.46 percent as did those divorced or separated to 2.47 percent.

A BRIEF ANALYSIS

FIG. 2 – MARITAL STATUS OF THE POPULATION 10 YEARS OLD AND OVER BY SEX, IFUGAO, 1980

HIGHEST GRADE COMPLETED

Of the private household population 7 years old and over, almost half, or 49.81 percent, completed an elementary education. This marked a 1.30 percentage-point decrease from that of 1975. Those schooled until the secondary level increased by 3.04 percentage points to 13.59 percent. Persons who went to college constituted 4.18 percent, 1.59 percentage points more than that in 1975. Despite an increase of 0.58 percentage point, still very few (2.00%) were holders of an academic degree. Those who had no formal education as well as those who did not reveal their educational attainment, decreased by 0.60 percentage point and 0.31 percentage point, respectively.

Of those who had an elementary education, 42.26 percent finished at most the third grade; 29.73 percent, the fourth or fifth grade and 28.01 percent, the sixth or seventh grade. Over two-thirds (68.93%) of those who went to high school completed at most the third year, while 31.07 percent graduated from fourth year. A majority (84.81%) of those who attended college completed at most the third year while the rest (15.19%) finished fourth year or higher.

A BRIEF ANALYSIS

The females registered higher proportions of college schoolers (4.55%) and academic degree holders (2.42%) than among males (3.81% and 1.57%, respectively). However, they also registered higher proportion of those who had no formal schooling (female – 33.61%, male – 26.56%). For those who had elementary and secondary schooling, the proportions were higher among males (53.60% and 14.05%, respectively) than among females (46.08% and 13.14%, respectively).

**TABLE D – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED, IFUGAO: 1975 AND 1980**

Highest Grade Completed	1980		1975	
	Number	Percent	Number	Percent
Total	<u>85,897</u>	<u>100.00</u>	<u>81,381</u>	<u>100.00</u>
No grade completed	25,865	30.11	24,989	30.71
Elementary grade	42,786	49.81	44,036	54.11
High school	11,675	13.59	8,587	10.55
College	3,589	4.18	2,108	2.59
Academic degree holder	1,717	2.00	1,158	1.42
Not stated	265	0.31	503	0.62

A BRIEF ANALYSIS

LITERACY

The literacy rate for all private household persons aged 10 years old and over in the province was 55.45 percent, a 4.79 percentage-point increase from that of 1970. The urban areas had a higher rate of literacy than the rural areas. More than three-fourths or 79.95 percent of the urban population were literate compared to only 52.98 percent in the rural areas.

Males turned out to have more literates than females —57.20 percent for males against 53.76 percent for females. Of the urban males, only 19.32 percent were illiterates compared to 20.74 percent among their urban partners. For the rural males, a total of 45.14 percent were illiterates, still lower than the rural females who had 48.84 percent.

FIG. 4 – PERCENTAGE LITERACY OF PRIVATE HOUSEHOLD POPULATION
10 YEARS OLD AND OVER BY SEX, URBAN-RURAL, IFUGAO: 1980

A BRIEF ANALYSIS

LANGUAGE OR DIALECT

Ifugao, the principal dialect, is spoken by 86.74 percent of the 23,243 private households in the province, Ilocano by 11.15 percent, Tagalog by 0.70 percent and Bontoc by 0.24 percent. In the urban areas, only four of the twenty-two languages and dialects used in the province are commonly spoken. These are Ifugao (73.59%), Ilocano (24.55%), Tagalog (1.33%) and English (0.53%).

GAINFUL OCCUPATION

A total of 46,478 persons 15 years old and over are gainful workers, making up 74.46 percent of the total persons engaged in gainful and non-gainful occupations.

More than four-fifths (85.43%) of the total gainful workers are engaged in agriculture and animal husbandry or employed as forestry workers, fishermen and hunters. This is 3.23 percentage points and 4.71 percentage points lower than the 1970 and 1975 proportions, respectively. Production and related workers, transport equipment operators and laborers, although second in rank, comprise only 6.17 percent. Third in line and slightly rising by 0.83 percentage point since 1975 are professional, technical and related workers. Steadily increasing are service workers, sales workers, and clerical and related workers with 1.62 percent, 1.34 percent, and 1.24 percent, respectively. Administrative, executive and managerial workers are the least with merely 0.25 percent.

TABLE E — GAINFUL WORKERS 15 YEARS OLD AND OVER
BY MAJOR OCCUPATION GROUP, IFUGAO:
1970, 1975 AND 1980

Major Occupation Group	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	46,478	100.00	45,569	100.00	42,484	100.00
Professional, technical and related workers	1,528	3.29	1,122	2.46	1,021	2.40
Administrative, executive and managerial workers	118	0.25	83	0.18	219	0.52
Clerical and related workers	578	1.24	393	0.86	285	0.67
Sales workers	621	1.34	460	1.01	273	0.64
Service workers	754	1.62	456	1.00	394	0.93
Agricultural, animal husbandry and forestry workers, fishermen and hunters	39,706	85.43	41,076	90.14	37,668	88.66
Production and related workers, transport equipment operators and laborers	2,866	6.17	1,345	4.05	2,486	5.85
Workers not classifiable by occupation	307	0.66	134	0.30	138	0.33

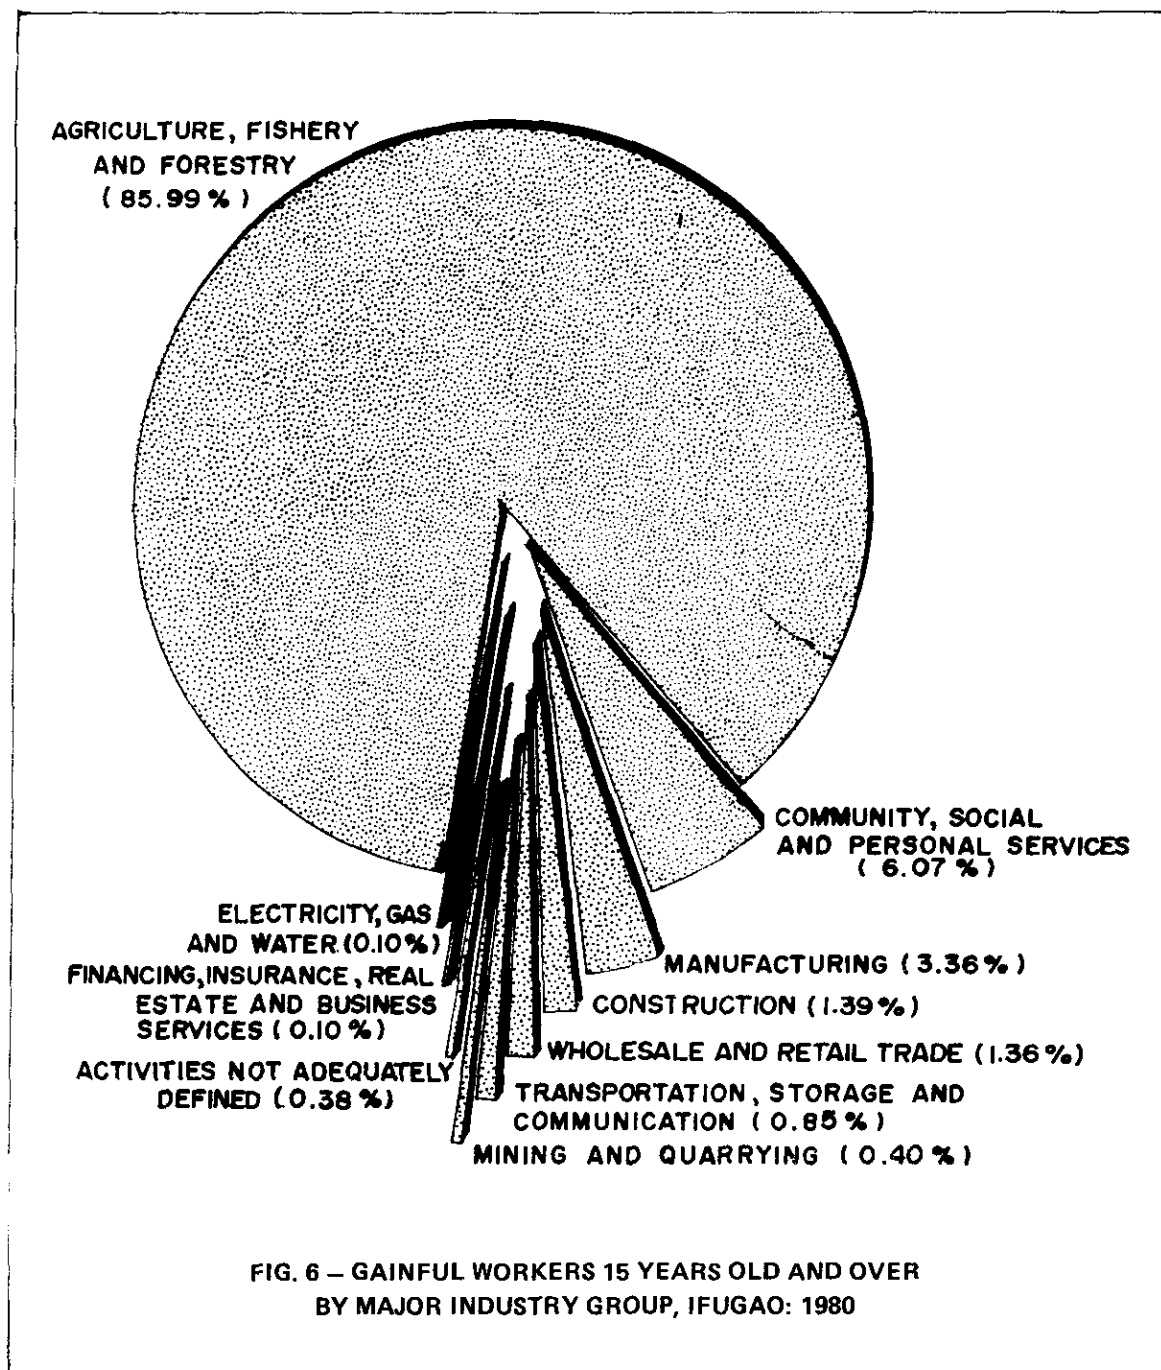

FIG. 5 – GAINFUL WORKERS 15 YEARS OLD AND OVER
BY MAJOR OCCUPATION GROUP, IFUGAO: 1980

INDUSTRY

Ifugao is mainly an agricultural province with 85.99 percent of the total gainful workers engaged in agriculture, fishery and forestry. Following very far behind are workers engaged in community, social and personal services. This group constitute only 6.07 percent with the education services (38.94%) and public administration and defense (34.34%) sectors serving as the workers' principal concentrations. The manufacturing industry ranks third and accounts for no more than 3.36 percent. Manufacture of wood and wood products, including furniture and fixtures (77.12%) and manufacture of textile, wearing apparel and leather (15.71%) are the two leading sources of employment in the group. Wholesale and retail trade contributes 1.36 percent while construction, 1.39 percent. Very few are engaged in mining and quarrying (0.40%), electricity, gas and water (0.10%) and in financing, insurance, real estate and business services (0.10%).

A BRIEF ANALYSIS

MIGRATION

A great majority (96.82%) of the 92,532 persons 5 years and over lived in the same municipality where they had resided on May 1, 1975. Residents of another province comprised 1.72 percent, while 1.32 percent changed their municipalities but stayed within their home province. Only a very small percentage of the population (0.14%) had been residing in another country. In all these three migratory movements, majority migrated to rural areas –

A BRIEF ANALYSIS

71.56 percent for those inter-municipality migrants, 65.71 percent for those migrants from other provinces, and 93.18 percent for those residents of other countries. Comparatively, the females (0.70%) exceeded the males (0.62%) in terms of inter-municipality migration within the province. For those migrants from other provinces, the proportion was higher among males than females, 0.95 percent for the former and 0.77 percent for the latter.

TYPE OF BUILDING

Almost all (98.89%) of the 23,243 households in Ifugao are occupying single houses. Very few are living in improvised structures or barong-barong (0.44%), in apartment/accesoria/condominium/row house (0.37%), or in duplex (0.26%), and only an insignificant 0.04 percent are in commercial/industrial/agricultural buildings.

Apartment/accesoria/condominium/row house and commercial/industrial/agricultural occupants are entirely urban dwellers. On the other hand, most (92.40%) of the households living in single houses are in the rural areas; only 7.60 percent are urban dwellers. Likewise, more households in the areas are occupying duplex (58.33%) and barong-barong (85.29%) than those in the urban areas (41.67% and 14.71%, respectively) (Table 1).

The table below provides insight into the housing condition of households in Ifugao in 1970 and 1980:

**TABLE F – NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS
BY TYPE OF BUILDING, IFUGAO: 1970 AND 1980**

Type of Building	1980		1970	
	Number	Percent	Number	Percent
Total	<u>23,243</u>	<u>100.00</u>	<u>20,045</u>	<u>100.00</u>
Single house	22,986	98.89	18,827	93.92
Duplex	60	0.26	49	0.25
Apartment/accesoria/condominium/row house/etc.	85	0.37	36	0.18
Improvised (barong-barong)	102	0.44	1,027	5.12
Commercial/industrial/agricultural	10	0.04	104	0.52
Other housing unit: natural shelter, boat, etc.	—	—	—	—
Hotel, lodging house, dormitory, etc.	—	—	—	—
Institutional (hospital, convent, school dormitory, etc.)	—	—	2	0.01
Other collective living quarters (military camp, etc.)	—	—	—	—

A BRIEF ANALYSIS

TYPE OF OCCUPANCY

More than nine out of ten households (92.29%) in Ifugao own the units they occupy. The rest of the households are either tenant/lessee (2.13%), subtenant/sublessee (0.43%) or rent-free occupants (5.15%).

Households in the rural areas mostly own the units they occupy (94.29%), compared to those free-renter, tenant/lessee, and subtenant/sublessee making up only 4.62 percent, 0.62 percent, and 0.47 percent, respectively. Owner-occupants in the urban areas comprise 69.55 percent; those tenant/lessee, 19.29 percent; and those rent-free occupants, 11.16 percent (Table 1).

CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

A little over three-fourths (75.85%) of the total households have roofs constructed of light materials (cogon/nipa, makeshift/salvaged materials, anahaw, etc.) while the remaining 24.15 percent have strong materials (galvanized iron, tile/concrete/brick/stone, and asbestos). A bigger proportion of the urban households (73.06%) have dwelling units roofed with strong materials while majority of the households in the rural areas have roofs of light materials (80.16%).

Walls of strong materials (galvanized iron/aluminum, tile/concrete/brick/stone, wood/plywood, mixed tile/concrete/brick/stone and wood/plywood, and asbestos) are used by more than two-thirds (67.44%) of the households. This also holds true for both the urban and rural households where 84.06 percent and 65.97 percent, respectively, have walls built of the same materials (Table 2).

YEAR BUILT

More than one-fourth, or 27.02 are occupants of dwelling units built in 1976-1980; 20.45 percent, during 1971-1975; 21.55 percent, 1961-1970; 15.70 percent, 1951-1960; 8.22 percent, 1942-1950 and 7.06 percent, before World War II (1941 or earlier).

FLOOR AREA OF DWELLING UNIT

A big percentage (81.87%) of the households have dwelling units with floor area of less than 30 square meters. While 14.11 percent live in 30-49 square meters of dwelling units, only 2.29 percent live in units of 50-69 square meters. Very few have floor area of 70-99 square meters (0.98%) and 100 square meters or more (0.75%) (Table 3).

TENURE OF OWNER-OCCUPANT WITH RESPECT TO THE LAND

Of the 21,450 households owning their dwelling units, 92.50 percent also own the land where the structure is erected. The remaining proportions are as follows: 0.69 percent, lessee or sublessee; 0.94 percent, farm lessee/agricultural tenant of landowner; 0.56 percent, other legal tenure; and 5.31 percent have no tenure (squatter).

It is interesting to note that in the municipality of Kiangán, all households in the urban areas who own their dwelling units are also owners of the land where their structure is built (Table 4).

KIND OF LIGHTING FACILITIES

For lighting purposes, kerosene is widely used throughout the province with 90.25 percent of the households using it. Only 7.43 percent use others such as candle or wax; 1.21

A BRIEF ANALYSIS

percent, liquefied petroleum gas and 1.09 percent, electricity. Nearly the same proportion of households in the urban (90.33%) and in the rural areas (90.25%) are using kerosene for their lighting facility. A greater proportion of urban households (3.77%) use electricity than rural households (0.85%); same with liquefied petroleum gas (5.63% and 0.82%, respectively). However, very few households (0.27%) in the urban areas use others compared to 8.06 percent in the rural areas. Households using oil (0.02%) are all concentrated in the rural areas (Table 5).

SOURCE AND USE OF WATER SUPPLY

Most households (64.58%) in this province depend on the spring as their source of drinking water. Faucet, community water system is used by only 13.69 percent, followed by dug well with 11.75 percent. The rest are broken down as follows, 5.38 percent, tubed/piped deep well; 4.07 percent, tubed/piped shallow well and 0.51 percent, lake, river, stream, irrigation, etc. More than one-half (58.93%) of the urban households use faucet, community water system compared to 9.71 percent of the rural households using it for drinking purposes. Rural households depend mainly on the spring (68.41%) for their drinking water supply. For kitchen use, most of the households (64.23%) likewise depend on the spring as their source of water supply; 13.69 percent, from the faucet, community water system; 11.75 percent, from dug well; 5.38 percent, from tubed/piped deep well; 4.07 percent, from tubed/piped shallow well and 0.86 percent, from lake, river, stream, irrigation, etc. For washing clothes, however, more households (39.57%) rely on lake, river, stream, irrigation, etc.; 37.66 percent, spring; 11.93 percent, faucet, community water system; 4.65 percent, dug well; 3.76 percent, tubed/piped deep well and 2.39 percent, tubed/piped shallow well (Table 6).

TOILET FACILITIES

Of the various types of toilet facilities, the open pit is used by more than one-half (51.87%) of the provincial households. About 37.86 percent use the closed pit or antipolo style, 5.23 percent have flush or water-sealed toilets and still 4.75 percent are without toilet facilities. Closed pit or antipolo style is the most commonly used type of toilet facility in the urban areas (38.10%). The flush or water-sealed type is used by 29.38 percent and the open pit by 21.57 percent. In comparison, 54.53 percent of the rural households use the open-pit type; 37.84 percent, the closed pit or antipolo style; 3.10 percent, the flush or water-sealed type and 0.32 percent resort to the pail system. Urban households, however, have registered a higher proportion of not having toilet facilities (10.95%) than the rural households (4.21%) (Table 7).

COOKING FUEL

Wood or charcoal is still the most common type of cooking fuel in the province. More than 21 thousand, or 92.39 percent of the total households use wood or charcoal for cooking, while only 4.87 percent use kerosene; 1.67 percent, liquefied petroleum gas; 0.59 percent, electricity and 0.48 percent, others. Rural households are the biggest users of wood or charcoal (93.98%) as compared to urban households which comprise 74.39 percent. Liquefied petroleum gas is used by more households in the urban (14.19%) than in the rural areas (0.57%); same with kerosene, 11.16 percent for the former and 4.31 percent for the latter (Table 8).

A BRIEF ANALYSIS

OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER

Ifugao has very few households owning modern conveniences such as radios, television sets and refrigerators or freezers. Out of 23,243 households, only 25.83 percent own radios, 0.39 percent have television sets while 0.52 percent are with refrigerators or freezers. Households in the urban areas have higher proportions of ownership of household appliances than those in the rural areas. Of the urban households, 45.96 percent own radios; 3.45 percent have television sets and 3.51 percent, refrigerators or freezers. Among the rural households 24.06 percent own radios; only 0.12 percent and 0.26 percent have television sets and refrigerators or freezers, respectively (Table 9).

HOUSING CENSUS QUESTIONS

(Encircle Code or Enter Appropriate Code If Required.)

H-1 to H-4 are to be asked only of the first sample household in every building (Repeat entries for other sample households in this building.)

SERIAL NO. (from PH Form 1)			
Bldg.	DU	HH	
6			
12			21

H-1 What type is this building/house?

- 1 Single House
- 2 Duplex
- 3 Apartment/Accessor/Condominium/Row house/etc.
- 4 Improved (barone-sharon)
- 5 Commercial/Industrial/Agricultural
- 6 Other housing unit: natural shelter, boat, etc.
- 7 Hotel, lodging house, dormitory, etc.
- 8 Institutional (hospital/convent/school dormitory/penal institution)
- 9 Other collective living quarters (refugee camp, logging camp, military camp, etc.)

H-2 What construction material is the roof made of?

- 1 Galvanized iron/Aluminum
- 2 Tile/Concrete/Brick/Stone
- 3 Asbestos
- 4 Cogon/Nipa
- 5 Make-shift/Salvaged Materials
- 6 Other (bamboo, etc.)

H-3 What construction material are the outer walls made of?

- 1 Galvanized Iron/Aluminum
- 2 Tile/Concrete/Brick/Stone
- 3 Wood/plywood
- 4 Mixed Tile/Concrete/Brick/Stone and Wood/plywood
- 5 Asbestos
- 6 Bamboo/Sawali
- 7 Cogon/Nipa
- 8 Make-shift/Salvaged Materials
- 9 Other (bamboo, etc.)

H-4 When was this building/house built?

- 1 1980
- 2 1979
- 3 1978
- 4 1977
- 5 1976
- 6 1971 - 1975
- 7 1961 - 1970
- 8 1951 - 1960
- 9 1942 - 1950
- 0 1941 or earlier

H-5 and H-6 are to be asked of the sample household in the dwelling unit. (Repeat entries for other sample households in this dwelling unit.)

H-6 What is the floor area of this dwelling unit in square meters?

- 1 Less than 30 sq. meters
- 2 30-49 sq. meters
- 3 50-69 sq. meters
- 4 70-99 sq. meters
- 5 100-149 sq. meters
- 6 150-199 sq. meters
- 7 200-249 sq. meters
- 8 250-299 sq. meters
- 9 300 sq. meters & over

H-7 to H-13 should be answered by all sample households.

H-7 How does this household occupy this dwelling unit?

- 1 Owner
- 2 Tenant/Leasee
- 3 Sub-tenant/subleasee
- 4 Rent-free

H-8 (If household owns this dwelling unit) What is your tenure with respect to the land?

- 1 Owner
- 2 Lease of soil/land
- 3 Farm lease/agricultural tenant of landowner
- 4 Other legal tenure
- 5 No tenure (squatter, etc.)
- 6 Not applicable

H-9 What kind of lighting do you use?

- 1 Electricity
- 2 Kerosene
- 3 Liquidified Petroleum Gas (LPG)
- 4 Oil (vegetable, animal)
- 5 Other

H-10 What is the main source of your water supply? (Encircle only one for each use.)

- 1 For Drinking
- 2 For Kitchen Use
- 3 For Washing Clothes
- 4 For Bathing
- 5 For Other Use

H-11 What kind of fuel do you use most of the time for cooking?

- 1 Electricity
- 2 Kerosene
- 3 Liquidified Petroleum Gas (LPG)
- 4 Wood, charcoal
- 5 Other

H-12 What kind of toilet facilities do you use?

- 1 Water-sealed, sewer-septic tank, used exclusively by household
- 2 Water-sealed, sewer/septic tank shared with other households
- 3 Water-sealed, other depositary used exclusively by the household
- 4 Water-sealed, other depositary shared with other households
- 5 Open pit (antipolo, etc.)
- 6 Open pit
- 7 Other (pail system, etc.)
- 8 None

H-13 Do you have these appliances working condition?

- 1 YES
- 2 NO
- 3 a. Radio
- 4 b. TV
- 5 c. Refrigerator/Freezer

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives or U.N., I.L.O. or USAID officials who, like diplomatic representatives, are subject reassignment to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosaria or leper colonies, pavilions of tuberculosis sanatoria where patients stay alone or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (wellwared).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, ministers, nuns, seminarians, etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA

- a. Officers and enlisted men/draftees, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS, PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddines, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEAN-GOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS

- a. Filipino crew members of ocean-going vessels (whose own families live in the Philippines) at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal vessel or deep-sea fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Filipino citizens working and living inside the camps.
